Bio Compression's Sequential Circulator – SC-3008-DL

CAPABILITY STATEMENT

VasoCARE is proud to provide Bio Compression's Sequential Circulator System to veterans suffering with lymphedema, chronic edema, and venous stasis ulcers throughout the USA.

The SC-3008-DL, a digital 8-chamber pneumatic device provides calibrated gradient sequential compression for treating lymphedema, lymphedema associated with venous insufficiency, and/or venous stasis ulcers.

The ultimate pneumatic compression device delivers gradient pressure to every chamber to maximize lymphatic drainage.

A wide variety of limb sleeves are compatible with the SC-3008-DL to treat legs, groin, buttock, abdomen, arms, and chest areas.

Program pressure settings in all 8 chambers, maintains greater distal pressure to prevent reflux. Compliance meter monitors use and adjustable countdown clock shuts off the pump after treatment has ended.

KEY FEATURES:

- 8 chamber system
- Sequential, non-peristaltic
- Gradient pressure
- Distal to proximal cycle
- 60 second cycle time
- 0 - 120 mmHg pressure range
- Compliance meter and timer
- Custom arm and leg sleeves
- Bio Compression Systems is a USA company

CORE DATA:

NAICS: 339113, 621999
Surgical Appliances

SPECIFICATIONS:

- Size: 4.5" x 11.75" x 7.75"
- Weighs: 5.9 lb.

Made in the USA

COMPANY SNAPSHOT

CAGE Code: 75U54
DUNS Number: 038082014
FSS Contract#: 36F79719D0099
Point of Contact: John Berges

Phone: 800-256-9979
Fax: 866-455-5150
Address: 6554 Florida Blvd.
Suite 123
Baton Rouge, LA 70806
Accreditation: HQAA
Networks: Medicare, Medicaid,
BCBS, Humana, UHC, etc.

Maximum Comfort for Positive Results

The SC-3008-DL Sequential Circulator is as unique as the patient population it services.

Sequential Circulator SC-3008-DL

Patients have different needs so our advanced digital compression device measures and delivers calibrated gradient pressure to each of the 8 chambers in the limb sleeve to provide the best possible treatment. The SC-3008-DL lets the user program the pressure setting in each of the 8-chambers, always keeping greater distal pressure to prevent reflux. Compliance meter monitors patient-use and count-down clock automatically shuts off at the end of the session.

Product	HCPCS	Item #	Description	Qty.	Price
Sequential Circulator	E0652	SC-3008-DL	Compression device	1	\$2,512.56
Leg Sleeve	E0667	G8-3045	8 Chamber Sleeve	1	\$ 376.88
Arm Sleeve	E0668	G8-3035	8 Chamber Sleeve	1	\$ 351.76

S - small M - medium L - large

Warranty - SC-3008-DL (4-years) and all limb sleeves (1-year)

True calibrated gradient pressure enhances venous and lymphatic flow and reduction.

Every device is tested for pressure accuracy.

Bi-lateral 8-chamber leg sleeves

Custom leg-sleeve

8-chamber arm and shoulder sleeve

Custom amputee sleeve

16-chamber Bio Pants treats groin, buttock and abdomen

Bio Compression Systems is the only company in the world that manufactures custom arm and/or leg sleeves for patients having special needs.
